

ALWAYS EXPECT THE UNEXPECTED

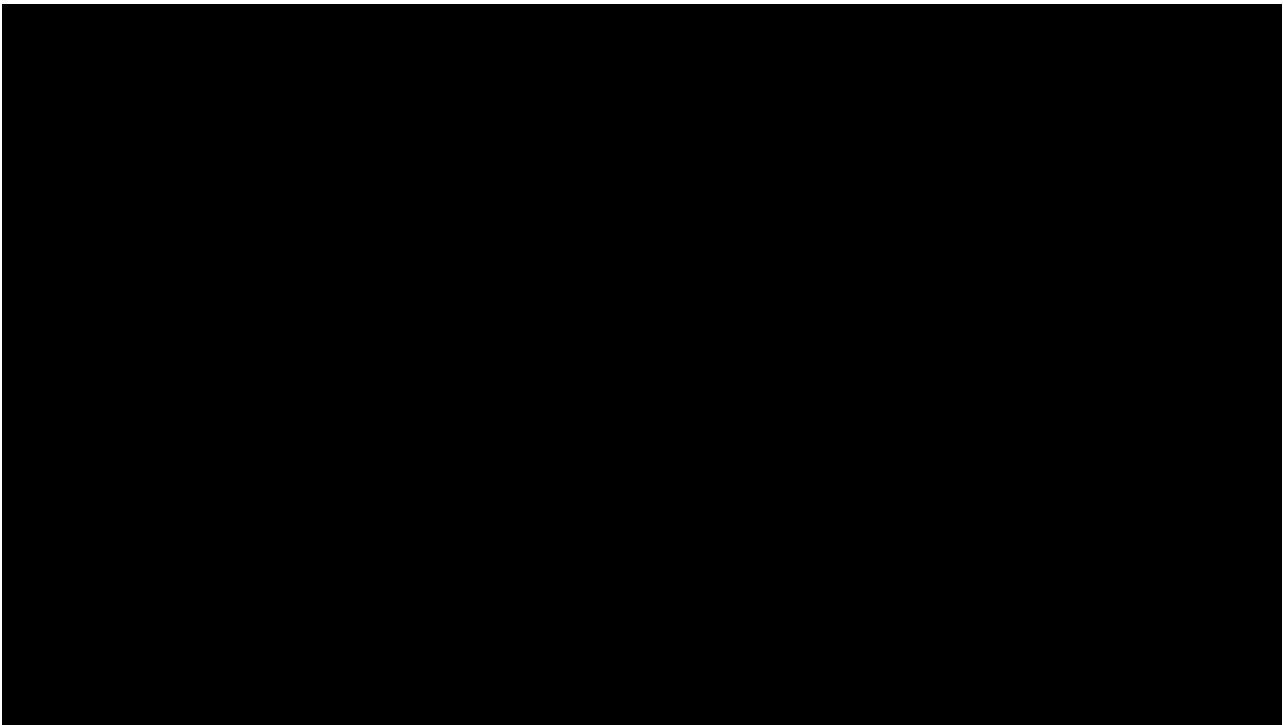

BY

***Dr.Rania Mohamed Sobhi Ahmed Zaki MD ,FRCS ED
Assistant Professor of Ophthalmology Cairo University***

2019

**THE BEST
THINGS
HAPPEN
UNEXPECTEDLY..**

TAKE HOME MESSAGE

- ASOCT is mandatory before operation
- Reformation of AC before trephination
- Partial trephination of the cornea to avoid injuries of the lens and the iris
- The separation of the cornea should be started away from the perforation
- The separation should be gentle ,very slowly and under viscoelastic
